Why choose cultured marble?

Why Choose Cultured Marble? Cultured marble is a highly durable material made from calcium carbonate and advanced resin, ensuring excellent chemical and mechanical resistance. It is molded during manufacturing, allowing for versatile shapes and designs that offer key advantages over traditional bathroom materials.

- 🛡️ Eco-friendly material
- 🛡️ UV-resistant coating
- 🧴 Stain-resistant
- 🌡️ Resistant to thermal shock
- ⊕ Non-porous finish
- 🏆 Does not wear out
- ✨ Does not fade
- 🧼 Easy maintenance

CABINETS

At Firplak S.A., we have been enhancing the living experience for over 45 years through innovative and sustainable home solutions.

We have a highly qualified and committed team working at our industrial complex located south of Medellín, Colombia. This complex includes four production plants dedicated to manufacturing RTA furniture, carpentry, synthetic marble countertops (sinks, kitchen sinks, and laundry sinks), and solutions for wet areas (whirlpools and spas).

With more than 35 years of export experience, we have a strong international presence in North, Central, and South America, as well as the Caribbean, adhering to high standards of quality and safety.
